China se acerca a Orwell: se plantea poner notas a sus ciudadanos

El Estado chino está preparando en el marco de su decimoquinto Plan Quinquenal una base de datos para evaluar el comportamiento financiero y social de sus ciudadanos que puede suponer recuperar los sistemas de control social de la época maoísta.

Beyond Bitcoin: the revolutionary potential of the “blockchain”

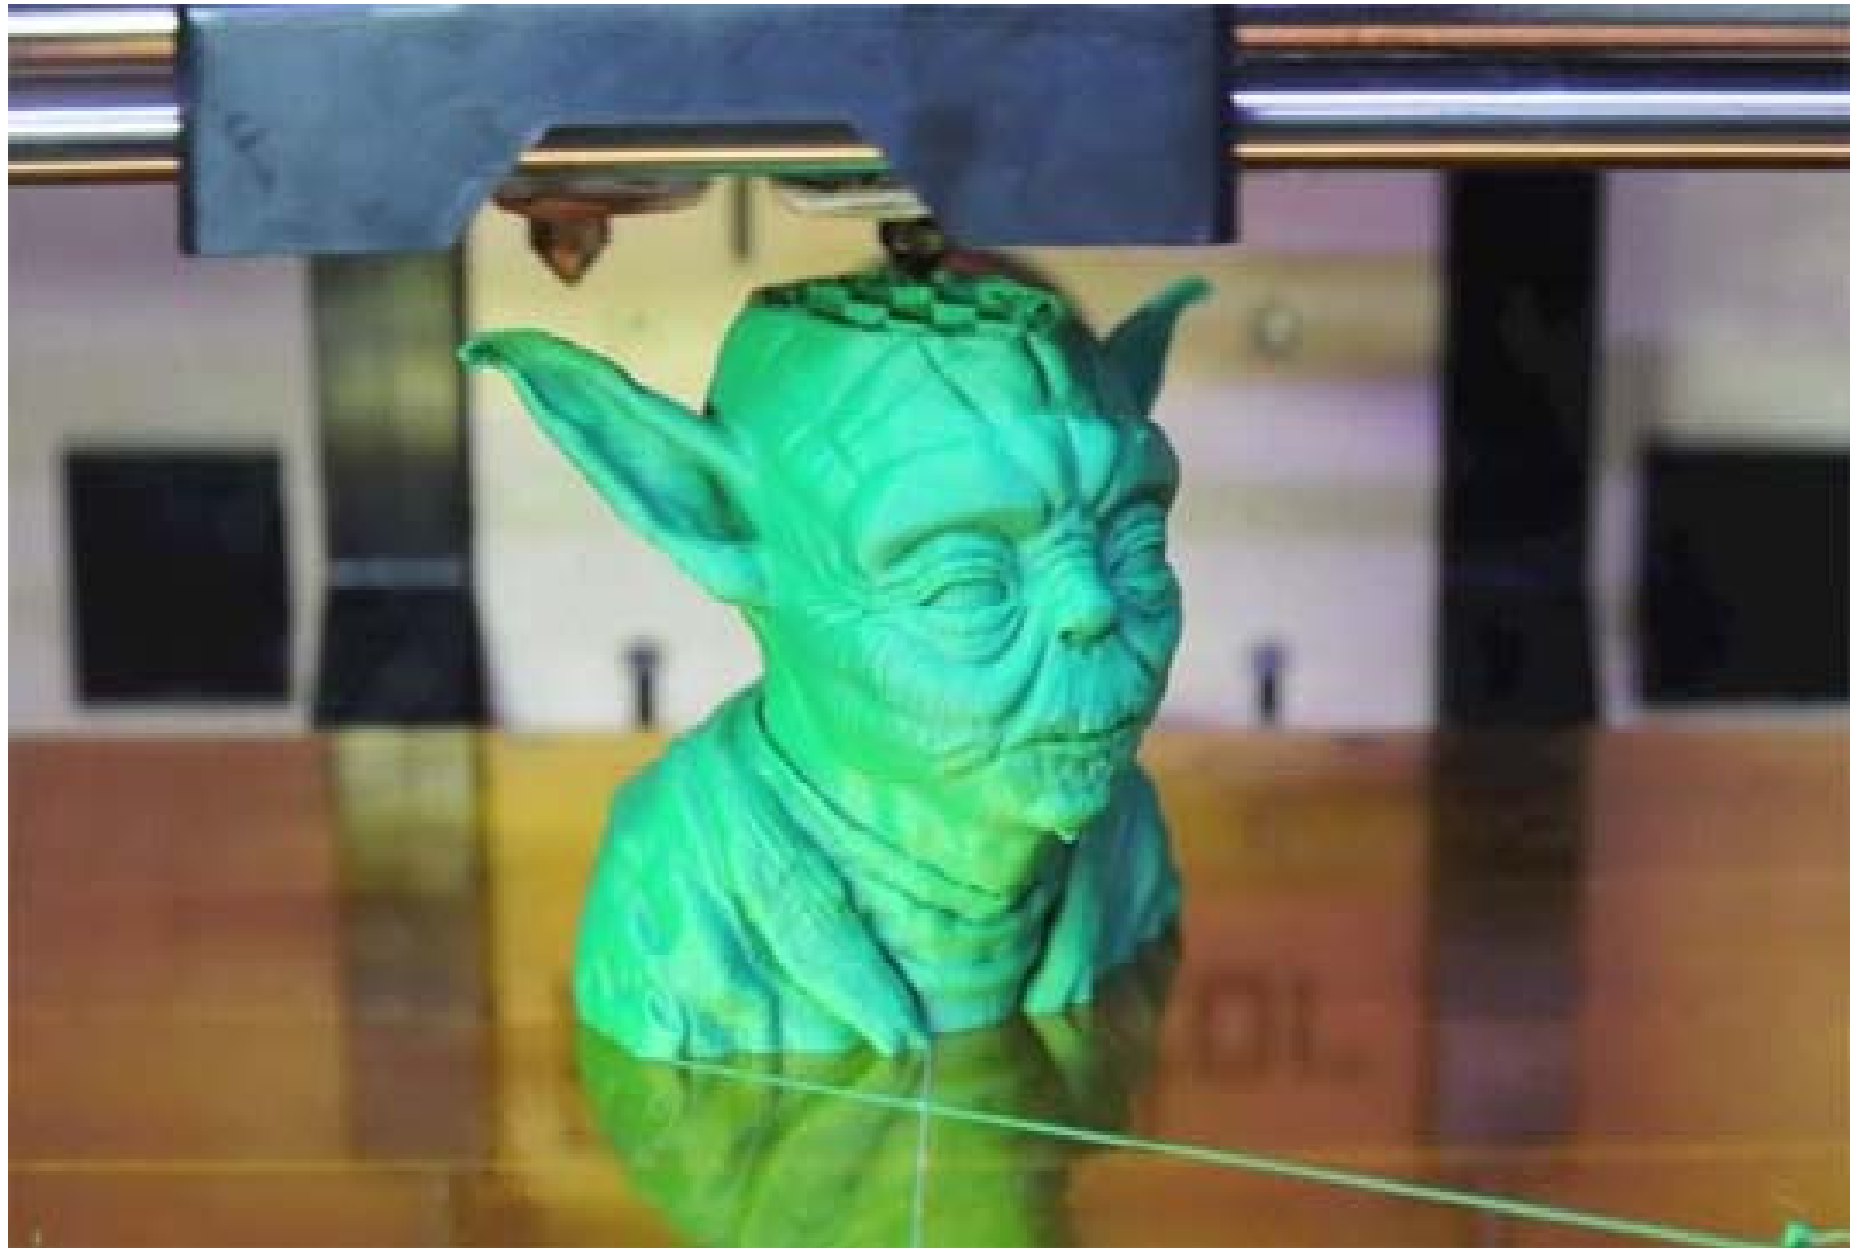

The technological mechanism that underpins cryptocurrencies such as Bitcoin could theoretically be used to anonymously verify any kind of transaction – and its impact could be enormous.

Olvídate de las impresoras 3D, lo nuevo es la impresión 4D

PUBLICADO POR
LUCIA YARZABAL

Mientras nosotros, los simples mortales, nos maravillábamos con las impresoras 3D y todas las impresionantes cosas que se podía hacer con ellas, en algún lugar del mundo, un ser superior ya estaba pensando en las **impresoras 4D**.

Si, es posible: la **impresión en cuatro dimensiones** ya es una realidad. ¿Estás impresionado? Nosotros también. Vamos a ver de qué se trata.

¿Se va a quedar el sector legal al margen?

Los expertos opinan que no

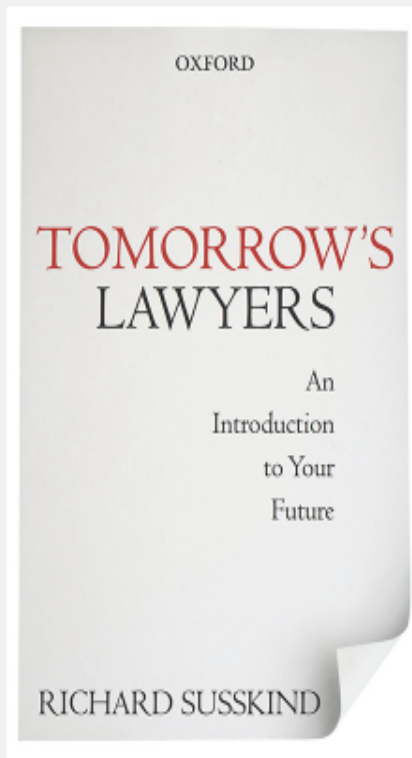

RICHARD'S LATEST BOOK

Tomorrow's Lawyers

In his latest book, Richard claims that legal institutions and lawyers are poised to change more radically over the next two decades than they have over the last two centuries.

The future of legal service, he says, will be neither Grisham nor Rumpole. Instead, it will be a world of virtual courts, Internet-based global legal businesses, online document production, commoditized service, legal process outsourcing, and web-based simulated practice. Legal markets will be liberalized, with new jobs, and new employers, for lawyers.

Tomorrow's Lawyers is a guide to this future – for young and aspiring lawyers, and for all who want to modernize our legal and justice systems. It navigates the new legal terrain and offers practical guidance for those who intend to build careers and businesses in law.

www.arsys.es/Dominios

Hello, I am the UK's first robot lawyer. I can answer questions, draft documents and send appeals. At the moment, I can help with parking tickets, delayed flights/late trains and claiming PPI. Talk to me by typing in the message box below or ask "what can you do" for a list of some examples.

my flight to Malaga was delayed

So sorry to hear that. Would you like me to help you get compensation?

sure

Was your flight delayed by more than three hours?

¡Gracias!
