DE DESARROLLO  
SOSTENIBLE

3 SALUD  
Y BIENESTAR

9 INDUSTRIA,  
INNOVACIÓN E  
INFRAESTRUCTURA

NIPO 116-20-001-5

La emergencia sanitaria provocada por la pandemia de COVID-19 ha dado lugar a una inmensa actividad en el terreno científico y tecnológico dirigida a combatir la enfermedad y su agente causante, el SARS-CoV-2. En este contexto, el acceso rápido a la información, que se va generando a un ritmo sin precedentes, resulta de gran importancia.

Desde la [Oficina Espaola de Patentes y Marcas](#), y en cumplimiento de nuestro doble objetivo de proteger y fomentar la innovación tecnológica en nuestro país, así como de divulgar la información técnica que contienen las patentes a través de los servicios de Información Tecnológica, nos sumamos a la estrategia global de difusión de la información y ponemos a disposición del público este Boletín de Vigilancia Tecnológica, que se añade a los dieciséis

Boletines VT que venimos publicando desde el año 2000 con periodicidad trimestral. El objetivo es dar a conocer las nuevas solicitudes de patente que se publican a nivel mundial relacionadas con la prevención, control, diagnóstico y tratamiento de las enfermedades causadas por coronavirus en humanos, y, en particular, aquellas que se refieren a COVID-19 y al virus SARS-CoV-2.

Los listados de documentos se presentan distribuidos en los cuatro apartados que se indican a continuación. Es importante señalar que se ha recuperado un gran número de documentos chinos relativos a SARS-CoV-2 y COVID-19. Dada la limitación existente, en principio, para consultar los documentos originales en chino, se ha optado por excluir estas referencias de los listados del Boletín e incluirlas aparte en el siguiente anexo.

## Contenido

[ANTIVIRALES Y OTROS AGENTES PARA TRATAR PATOLOGÍAS ASOCIADAS A LA ENFERMEDAD VIRAL](#)

[VACUNAS](#)

[DIAGNÓSTICO](#)

[DISPOSITIVOS PARA EL TRATAMIENTO O CONTROL DE LA INFECCIÓN VÍRICA](#)

El primer apartado, relativo a invenciones en el campo técnico de los antivirales, es el que tiene una mayor cobertura. Incluye documentos que tienen por objeto agentes químicos, sean éstos no biológicos o biomoléculas, con función antiviral específica, así como vehículos para la administración al paciente de dichos agentes. Además, este primer bloque se refiere a compuestos químicos o composiciones con efecto antimicrobiano inespecífico útiles para la inactivación de las partículas virales. La cobertura del grupo se extiende asimismo a herramientas moleculares y/o métodos útiles para el *screening* de nuevos agentes antivirales; y a productos que, sin tener una acción antiviral, son aplicables al tratamiento de las patologías asociadas a la infección vírica.

Debe tenerse en cuenta que algunos de los documentos son encuadrables en más de uno de los apartados considerados. En estos casos, se ha

adoptado el criterio de incluir el documento en todos los grupos pertinentes para facilitar la consulta al lector.

Esperamos que la información aportada en este Boletín de Vigilancia tecnológica, sirva para identificar tendencias tecnológicas y sus actores, así como para contribuir a la utilización del conocimiento contenido en los documentos de patente como punto de partida para emprender nuevas actividades de investigación y desarrollo. Para suscribirse a este Boletín basta con cumplimentar este [formulario de suscripción](#).

La publicación trimestral del Boletín se complementa con una [Alerta Tecnológica](#), de publicación diaria que permite un seguimiento más actualizado de las publicaciones a nivel mundial de nuevas solicitudes de patente relacionadas con Coronavirus en humanos.

## SESIONES DE FORMACIÓN DE LA OMPI, RELATIVAS A LA NUEVA NORMA ST.26 Y LA HERRAMIENTA WIPO SEQUENCE QUE FACILITA LA PREPARACIÓN DE LAS LISTAS DE SECUENCIAS DE SOLICITUDES DE PATENTES

[La Oficina Internacional de la Organización Mundial de la Propiedad Intelectual \(OMPI\)](#) ha estado trabajando en la elaboración de su nueva herramienta informática, [WIPO Sequence](#), que permite a los solicitantes de patentes y a las oficinas de Propiedad Industrial preparar y verificar las listas de secuencias de aminoácidos y nucleótidos como parte de las solicitudes de patente nacionales o internacionales de acuerdo con la nueva [Norma ST.26 de la OMPI](#), cuya aplicación está prevista en 2022.

Con el fin de dar apoyo a las Oficinas y a los solicitantes de patentes en la transición al uso de la Norma ST.26, la OMPI está realizando una serie de seminarios de formación por vía telemática (webinarios) en español con la colaboración de [la Oficina Española de Patentes y Marcas, O.A. \(OEPM\)](#).

La documentación del primer seminario en español (“Introducción”), se puede descargar en el siguiente enlace.

[https://www.wipo.int/meetings/en/details.jsp?meeting\\_id=65771](https://www.wipo.int/meetings/en/details.jsp?meeting_id=65771)

Los detalles sobre cómo inscribirse en estos webinarios se encuentran disponibles en el [sitio web de la OMPI](#)

## NUEVOS CONVENIOS FIRMADOS POR LA OEPM

La colaboración entre instituciones resulta fundamental para el avance de la sociedad en general y de la economía del país. Desde la [OEPM](#) esto lo tenemos muy claro, y por ello impulsamos la firma de diferentes convenios con distintas entidades de ámbitos tan diversos como la alimentación, el agua, los muebles y metales, el plástico o la energía solar entre otros.

La finalidad de estos convenios es impulsar la competitividad de la industria española en el ámbito de la innovación y su protección mediante la Propiedad Industrial (PI). Para ello, en sus correspondientes resoluciones se contempla la realización de actividades conjuntas, entre otras las jornadas formativas sobre los derechos de PI, que pretenden dar a conocer la utilización de los servicios de información tecnológica que ofrece la OEPM, los mecanismos de protección de los resultados de investigación y desarrollo tecnológico. Además, la OEPM les ofrece el apoyo necesario en la protección de sus activos intangibles con el fin de facilitar, impulsar y estimular el conocimiento y la utilización de los derechos de PI.

Sin duda alguna, estos convenios van a resultar una herramienta de cooperación muy útil para la promoción de la PI y sus beneficios en el desarrollo científico, económico y social de nuestro país.

## Más información

[La Oficina Española de Patentes y Marcas, O.A., y la Federación Española de Industrias de Alimentación y Bebidas \(FIAB\) firman un nuevo convenio de colaboración](#)

[La OEPM firma cuatro nuevos convenios de colaboración en materia de propiedad industrial con las siguientes plataformas y asociaciones tecnológicas: AIMPLAS, PLATECMA, PTECO2 y SOLAR CONCENTRA – PROTERMOSOLAR](#)

[La OEPM y la Plataforma Tecnológica Española del Agua firman un nuevo convenio de colaboración en materia de Propiedad Industrial](#)

[Nuevo convenio de colaboración entre la OEPM y el Instituto Tecnológico Metalmecánico, Mueble, Madera, Embalaje y afines, para impulsar la Propiedad Industrial dentro de la plataforma Tecnológica Forestal Española, PTFOR](#)

## CÓMO PROTEGER TUS DERECHOS DE PROPIEDAD INDUSTRIAL (DPI) SI ERES UNA PYME, EMPRESA O EMPRENDEDOR

### ¿Sabrías cómo proceder si infringen uno de tus Derechos de Propiedad Industrial?

La [Oficina Española de Patentes y Marcas, O.A. \(OEPM\)](#) ha publicado recientemente un folleto que recoge las pautas de cómo actuar y defenderse si sufrimos vulneración de una creación que implique un Derecho de Propiedad Industrial (DPI): una marca, un diseño, o una invención.

Dividido en cuatro líneas principales, el folleto desglosa qué medidas deben tomarse frente al uso no autorizado de terceros de nuestros DPI:

- Comenzando un negocio:** registra los activos intangibles para poder probar que son tuyos. Aprovecha los servicios de asesoramiento gratuitos que ofrece la OEPM, como el Servicio de Apoyo a la Empresa y evita los errores más comunes.
- Gestiona tu negocio:** infórmate sobre los servicios de vigilancia y haz un seguimiento activo del estado de tus DPI.
- Haz que tu negocio crezca:** infórmate de cómo proteger tus marcas, diseños e invenciones si vas a exportar o a exhibirlas en ferias o exposiciones. También valora la idoneidad de informar a aduanas.
- Defiende tu negocio:** se pueden tomar diversas vías y todas tienen ventajas e inconvenientes y debe decidirse cuál es la más adecuada según el caso. Muchas veces es una cuestión de elección del perjudicado de una vía u otra y otras veces, en función de dónde se produce la infracción o cuál es el resultado que se desea obtener. Por tanto, siempre es buena idea disponer de asesoramiento profesional. Se debe estudiar bien la situación y valorar costes y beneficios. Recabar todas las pruebas posibles de la presunta infracción. En el folleto también se ofrece una guía de actuación dependiendo del lugar donde se produce la infracción: en el mercado español, en la frontera de España, en el mercado interior de la Unión Europea, en terceros países o en el mundo digital.

**Protege tu negocio.** Mientras determinadas empresas apuestan por la calidad y la innovación de sus productos para crear valor añadido y diferenciarse de la competencia, existen agentes, en muchos casos mafias, que no dudan en infringir los derechos exclusivos y aprovecharse de la reputación ajena. Protege tus DPI, para que puedas defenderte y otros no se aprovechen de tus creaciones e invenciones.

El folleto puede descargarse [aquí](#) y también pueden visualizarse en el portal [Stopfalsificaciones](#).

## VENTAJAS DE TRABAJAR EN LA OEPM

La [Oficina Española de Patentes y Marcas, O.A. \(OEPM\)](#) es un organismo dependiente del Ministerio de Industria, Comercio y Turismo dedicado a la Propiedad Industrial, de carácter dinámico y con vocación internacional.

Marcas, O.A. (OEPM).

El objetivo de estos documentos no es otro que el de atraer talento y hacer más visible a la OEPM como destino para trabajar, dentro de un contexto de una competitividad cada vez mayor y unos recursos humanos cada vez más escasos.
