MAGISTER LVCENTINVS

University of Alicante

Since 1994, the main goal of the Magister Lvcentinvs, Masters in Intellectual Property at the University of Alicante, has been to promote and accomplish excellence in research and specialized education through the design of a program intended for lawyers and other professionals in the Intellectual Property and Information Technology field. Today, more than two decades later, the Magister Lvcentinvs ranks among the most prestigious European programs in this field.

“Our mission is to ensure that the Magister Lvcentinvs pioneers new approaches to training IP professionals for a globalized practice environment.”

The Magister Lvcentinvs offers a one-year LLM and three Specialist Qualifications Diplomas in Patents and Technology Transfer; Trademarks, Designs and Competition Law; and Copyright and Information Technology. Throughout the year it also offers special courses, including the well-known Intensive Course on Community Trade Marks and Designs, or the ITIP UPDATE Seminars, which are open to IP practitioners eager to deepen their knowledge in various relevant issues.

We are proud to be a founding member of the European Intellectual Property Institutes Network (EIPIN), which brings together IP students, scholars, and professionals in a permanent debate forum enabling them to discuss the latest topics in this subject area. Among other activities, EIPIN organizes two international seminars every year.

During the academic year, our students learn the National, European and International Intellectual Property Systems in highly orientated practical sessions that are delivered in both Spanish and English. The academic faculty includes more than a hundred and fifty national and international lecturers, all of whom are renowned specialists in their respective fields. Leading academic and professional institutions across the world collaborate with the University of Alicante on the course, including the Office for the Harmonization in the Internal Market, the European Patent Office, the World Intellectual Property Organization, and the Spanish Patent and Trademarks Office.

“Over the past twenty years, more than 700 students have passed through our classes, and we can proudly say that the vast majority of them are working in top institutions and firms all over the world.”

Our links to and cooperation agreements with more than 80 organizations in Europe, Latin America and Asia allow us to offer our students a wide range of internships in Public Institutions, Intellectual Property Agencies and law firms both in Spain and abroad. The Alumni Association of the Magister Lvcentinvs (AAAML) also collaborates actively with the Magister, organizing activities, guiding students and managing a job exchange unit that offers former students employment opportunities.
