La empresa Cargacoche, ha instalado en la sede del [Ministerio de Defensa](#) en la calle Arturo Soria 289, dos cargadores semirrápidos para dar servicio a su nueva dotación de vehículos eléctricos e híbridos enchufables, destinados a su personal interno.

Al primer contrato de Cargacoche con el Ministerio de Defensa se le suman anteriores actuaciones de implantación de infraestructuras de recarga en otros organismos públicos, especialmente en ayuntamientos. Ejemplos de ello son las estaciones recientemente instaladas en los municipios de Pedrezuela, Ágreda, San Martín de Pusa o Sant Vicenç dels Horts.

En el [Consejo de Ministros celebrado el 23 de noviembre de 2021](#), a propuesta del Ministerio para la Transición Ecológica y el Reto Demográfico (MITECO), se adoptó una nueva medida para impulsar la movilidad eléctrica, modificando la Ley 34/1998, del sector de hidrocarburos para introducir más competencia al otorgar total libertad al titular de las estaciones de servicio abanderadas o franquiciadas a la hora de instalar un punto de recarga para vehículos eléctricos, impidiendo que se vincule al contrato de suministro en exclusiva que mantienen con los operadores y cuyo contenido y límites se regulan en la citada ley.

El 9 de diciembre de 2021, diferentes medios de comunicación ([Diario de Navarra](#), [El Español](#), [msn](#)) se hicieron eco de unas declaraciones de Herbert Diess, CEO del grupo Volkswagen, según las cuales Volkswagen condiciona la fabricación de vehículos eléctricos compactos en las plantas de Martorell y de Pamplona a partir de 2025, a las condiciones generales y de los incentivos gubernamentales, en clara referencia al PERTE.

El pasado 28 de diciembre de 2021, se publicaron en el [BOE](#) las bases reguladoras, para la concesión de ayudas a actuaciones integrales de la cadena industrial del vehículo eléctrico y conectado, dentro del Proyecto Estratégico para la Recuperación y Transformación Económica en el sector del Vehículo Eléctrico y Conectado (PERTE VEC), en el marco del Plan de Recuperación, Transformación y Resiliencia.

El presupuesto máximo de las ayudas procedentes del fondo 'Next Generation EU' será de 2.975 millones de euros, de los cuales 1.425 millones serán en forma de préstamo y 1.550 millones en forma de subvenciones.

Podrán acogerse a las ayudas las agrupaciones sin personalidad jurídica propia, que hayan establecido con anterioridad un acuerdo de agrupación y cumplan los requisitos establecidos en el anexo VI de la orden ICT/1466/2021, de 23 de diciembre. Deberán cumplir además con otra serie de requisitos establecidos en el artículo 5 de las citadas bases.

El periodo de concesión de las ayudas es 2021-2023.

Serán financiables las inversiones y gastos realizados desde el día siguiente a la presentación de la solicitud y hasta un plazo máximo de treinta meses contados desde la fecha de resolución de la concesión o hasta el 30 de septiembre de 2025, lo que tenga lugar antes, salvo que la correspondiente convocatoria indique otros plazos.
